Amanda Tuscan Platform Statement

I am interested in serving as state liaison to the region chair for Region 3 in NACADA. I believe in West Virginia the opportunity is right to grow NACADA membership and the advising profession with the launch of Complete College America and the focus of proactive advising. This will give the states many regional institutions a chance to communicate in a way that they haven't before. My participation in NACADA has expanded my knowledge in my profession and this will be an opportunity for me to give back.
