Finance Committee Goals
2012-2013

1. Review association financial records/reports for compliance with policy and provide feedback, suggest modifications if needed, and make recommendations to the Council or Board as appropriate.

2. Consider alternative strategies to increase the Association’s return on investment (ROI) on a portion of any annual net profits and present recommendations to the Council, and, in turn, the Board for review and action.

3. Review annual budget requests and special requests, suggest modifications if needed, and make recommendations to the Council and Board as appropriate.

4. Periodically review accounting and audit practices and recommend changes if needed.

5. Support proposals to finance projects that enable the Association to carry out its strategic goals, such as those fostering collaboration and education among external constituencies both nationally and internationally.

6. Support proposals to finance member surveys and activities to increase the involvement of diverse groups.

7. As member terms expire, seek new committee members who represent diverse groups.
