## Important information for students on Academic Probation

*Your academic future is in jeopardy! Illinois State University is concerned about your future and is here to support you in your return to good academic standing through the Project Success program, which is required for all students on Academic Probation.*

### Project Success will:

- Provide you with the detailed information you **NEED** to know about Academic Probation policies
- Link you with campus services such as tutoring, counseling, mentoring, study groups, and other available campus programs
- Help you calculate exactly what grades you will need to get off probation as soon as possible
- Offer you support and helpful tips about the “unspoken rules” of campus life, such as the best way to communicate with your professors, and more!

As stated, Project Success is **required** for all students on Academic Probation. Failure to complete the program will be considered by the Reinstatement Committee should you be dismissed from the University. Illinois State University believes that the knowledge of campus policies and the utilization of campus resources, combined with your hard work, are the key to achieving academic success. Here is what some students are saying about Project Success:

*“I enjoy the fact that I’m able to meet with other academic probation students during a seminar and learn about what they’re doing. If something wasn’t working for me, I could use one of their ideas. It seems like I have a lot more options now.”*

*“I was embarrassed at first to even go into this seminar because I’ve never been put in an academic probation situation before. But seeing how many others are in the same position that I am helped me to not feel so alone.”*

*“I think that the Project Success program is very helpful. It really opened my eyes to the consequences of being on probation. This semester I have turned things around from a 1.77 GPA last semester to a projected 3.7 GPA. Thanks for your help!”*
