Is the advising fee assessed by student rather than by credit hour?

- by semester by college/school; varies on amount by unit
- \$8.85 per semester credit hour
- Enrollment fee covers one year of service and include evaluation of past college credit as well as advising services for one year. After one year, students pay an Student Advisement and Evaluation Fee for each year they are working toward their degree. These fees do not include costs associated with taking courses. Student pay for these separately
- Two units charge advising fees: Engineering & Business. Although different amounts, they both charge a flat fee per student per semester.
- credit hour (\$2 ea)
- credit hour.
- Credit hour
- At present \$20 per student per semester but planning to increase
- TSI affected students pay one fee. The TSI advising fee has been in place for several years. All other students pay a lower fee. This fee was initiated this semester.
- full-time or part-time status
- It is a flat fee assessed to full time students who take at least 12 hours. It is \$9 for a student with 12 hours or more of credit in the semester.
- I see no box for "other" comments on this survey, so I will use this space. We have no designated fee for advising currently, but approx. five years ago we added an "Invest in Success" fee that provided salary for one additional advisor in our Academic Advising Resource Center. This fee is now rolled into our tuition. There is now no fee directly related to advising.
- The revenue came from a tuition increased recommended by students in April 2001

How much has the fee changed since it was initiated?

- Stayed the same.
- no change
- As of Fall '05, fee rolled into flat tuition and fees
- unchanged
- ten times initial fee of \$10
- N/A
- The fee is new this year, so this questions 15 & 16 are not applicable.
- varies on unit
- Stayed the same
- New and no change
- same
- Not changed
- Varies per college
- stayed the same
- Enrollment fees and annual fees back in the early 70's I'm guessing were around \$50 to enroll and \$25 for the yearly continuation fee. Today the enrollment fee is \$895 Assoc. Degree and \$995 Baccalaureate degrees. The student advisement and evaluation fees are \$450 for Associate degrees and \$515 for Baccalaureate degrees.
- don't know

The advising fee funds the following (check all that apply):

- funds are put into the General Education Fund
- institution
- learning communities
- infrastructure to support advising offices and programs
- Business Career Center advising
- applies to many things including some of the things listed above
- Computing Equipment
- supports general budget which "includes advising"
- Technology support
- purchase and maintenance (salaries of programmers) of the online degree audit system
- It funds 4 different initiatives: Academic advising, undergrad research, campus climate, and diversity initiatives.
- office needs

What role did students play in initiating the original initial academic advising fee process?

- N/A
- students suggested, solicited, and approved fee with backing and support of faculty, staff, administration, and student population
- Student action helped in determining the use of the fee for additional advisors
- No Response
- Students suggested it, student gov't pushed for it, administration and faculty were allowed into the process, and in the end students pay half of the total funding - university pays other half.
- Non-binding student association comments on all fees, but final decisions are made by the Board of Trustees
